**Let Us Supply Your Metal
Fabrication Requirements...**

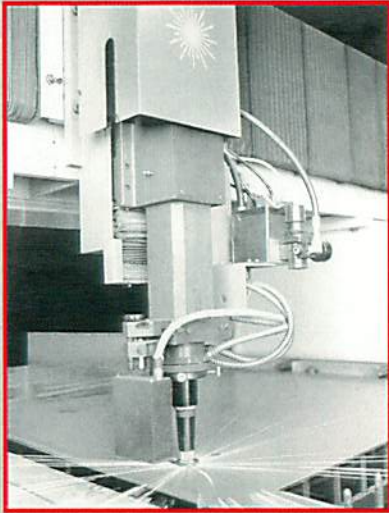

INDUSTRIAL

METAL

CRAFT

Gastonia, North Carolina

We are a progressive fabricating and forming company located in North Carolina. Our Capabilities range from 28 gauge sheet metal to 3/4" thick plate.

Laser Cutting Department

We use laser technology for precision cutting offering the ability to maintain closer tolerances with advanced CNC control.

Of course laser cutting is only the beginning. From our CNC controlled press breaks, shears, and punch presses to our precision welding and assembly departments, we are a full service metal fabricator.

We manufacture metal components for many different industries from pharmaceutical to construction. Below is a list of just a few of the many items we have made:

- **Pharmaceutical Counter Assemblies**
- **OEM Fabricated Parts**
- **Machine Frames**
- **Restaurant Equipment Parts**
- **Oven Insulated Panels**
- **Stainless Steel Mixing Tanks**
- **Pneumatic Fittings & Duct**
- **Specialty Stainless Steel Items**
- **Conveyor Metal**
- **Industrial Metal Door Components**
- **OEM Machine Metal**
- **Food Industry Parts**
- **Environmental Dust Systems**
- **Metal Buggies & Carts**
- **Platforms & Handrails**
- **Stainless Steel Hospital Maintenance Items**
- **Drip Pans & Covers**
- **Tubes & Cylinders**
- **Industrial Pallets**
- **Machine Weldments**
- **Electronic Cabinets & Frames**
- **Construction Industry Metal**

***No Job Is Too Small
Or Too Large!***

We typically use the following metals but are able to supply others if needed: carbon steel, stainless steel, aluminum, and galvanized.

Our computerized laser cutting equipment uses the latest laser technology for cutting all types of metals.

We stand ready to assist in design and development of your requirements and will be happy to quote your needs. We can do it all, including fabricating, welding, and assembly. We can supply metal treating, finishes, coating, and painting.

***Let Us Quote On Your
Metal Needs!***
